

I DO NOT feel it is in the best interest of the public for you to allow telemarketing calls to come to people that have signed up against it. It is bad enough to have to answer calls late at night when your phone rings and you are scared it is something serious only to find out that it is a telemarketer. Please DO NOT allow this to happen!!!! They have no respect of people anymore. If you don't listen to them they keep calling and if you tell them No you are not interested they insist on talking and when you hang up, they call you back. Please Do Not allow this to keep continuing.  
Thanks for y0our time. Sharon Dabney
